Intermediate / MPC
87.00
- Sri Chaithanya Vidyalayam** 2016
SCC / GENERAL
92.00

Projects

- Project Name : Smart shoes for visually impaired.**
The Smart shoe design provides a long-term solution for the blind to walk on roads independently. The smart shoes will help the Blind peoples to reach his destination independently. It is built using IoT-Technology in which the shoe will be embedded with various sensors, Microcontroller and buzzers. The shoe warns the user by making noise with the buzzer when he/she walks in front of an obstacle. The main aim is to improving self-confidence of the visually impaired people to live independently in their daily lives.
